FOREST ROMAN BLIND Series

Elegantly shaped aluminium profile with integrated Velcro Tape

THE WORLD BEHIND YOUR CURTAINS

FOREST BLIND SYSTEM - BS®

For a more streamlined look or when space is at a premium, roman blinds that stack neatly at the top of the window when retracted are the perfect solution. With the Blind System - BS® of Forest a sleek natural look is provided for your interior. Experience the simplicity of chain operation for Roman blinds. With an easy-to-use chain mechanism, adjusting the blinds to your desired position is effortless.

The Blind System - BS® is the most widely used and recognised roman blind in the industry. It comes with integrated velcro tape so that the fabric can be easily attached & removed. The system is always correctly alligned due to the twistlock on the cord roll support. For the
ultimate convenience a motorised control option is possible. Operate the Blind System at the press of a button or by your smartphone. See for more info about motorised options check further down in this brochure.

PRODUCT INFORMATION

• Compact hand drawn roman blind system.
• For all types of light and medium weight draperies.
• Elegant shaped aluminium profile, with integrated Velcro
hook tape.
• Application width: min. 38 cm & max 5.80 meter (19”). • Available height: 3.50 meter (11.5”).
• Simple face-fix and top fix installation.
• Conic shaped drums; thus smooth and straight operation of the system is guaranteed.
• Self-braking endless chain control units.
1:1 (fabric weight up to 3,5 kg)
1:4 (fabric weight up to 7,5 kg)
• Total maximum fabric weight up to 7,5 kg.
• Colour available: white.
• Special Child Safety solution possible.
• Track finish: chromated powder coated.
• Warranty Manual System: 10 year.

FOR USE IN

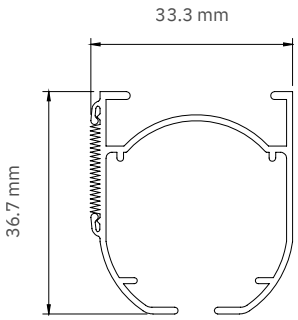

Hotels, offices, residences, boats or anywhere an efficient Velcro track system for roman shades is required.

Z-WAVE PLUS *

CRESTRON *

GIRA *

Control4 *

LOXONE *

LUTRON *

* Only works with actor.

Forest BCS® is compatible with many other Building Automation systems, thanks to its modular construction. A competitive advantage over other motorised drapery systems in the world!

CONTROL OPTIONS

Choose your preferred control option.

FOREST WIRELESS CONNECTOR

The Forest Wireless Connector provides an easy solution to make Forest motorised roman blinds 'smart.' When combined with a smart plug, you can effortlessly control the roman blinds through a mobile app. Controlling the motorised blind system by your smartphone or tablet, you can create and schedule customized room scenes that allow your blinds to operate on their own throughout the day.

Scan for more info

If you prefer to use the Forest Connect App, you can opt for Forest's smart plug. If you wish to operate your blinds with Apple HomeKit, Amazon Alexa, or Google Assistant, you will need a compatible third-party smart plug that works with these smart home apps. This RF device can also be seamlessly integrated into the most common building management systems, including systems with dry contacts.

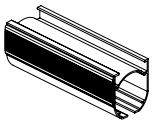

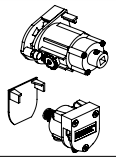

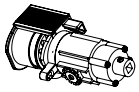

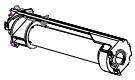

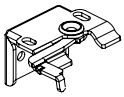

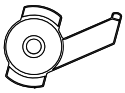

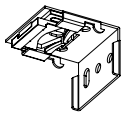

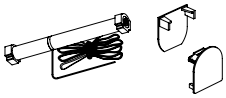

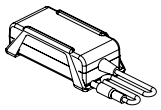

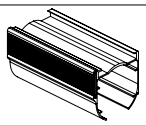

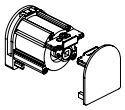

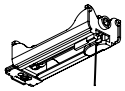

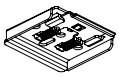

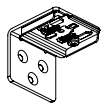

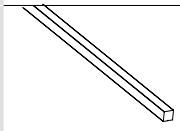

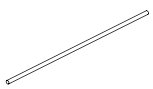

FOREST DIAMOND SENSE REMOTE

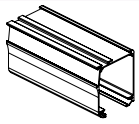

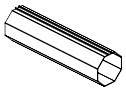

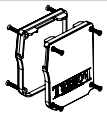

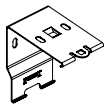

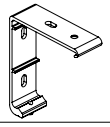

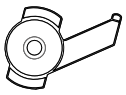

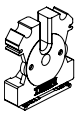

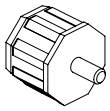

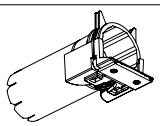

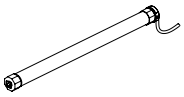

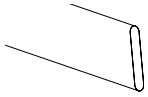

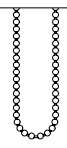

15 Channel remote control, possibility to control up to 15 systems individually and in group by integrated timer function or manual. Auto-On mode, when holding hand above it, the integrated LED light will automatically come on. Radio control, range up to 30 meters. Including magnetic wall support.

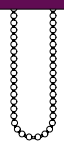

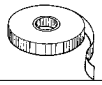

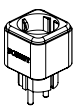

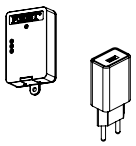

BUILDING AUTOMATION / HOTEL CONTROL

The BCS® system can be connected to any Building Automation system, by relay control. Also possible using the Wireless Connector.
